

XM radio is a great benifit to me when I travel to keep updated on the weather and traffic in the areas I go. It is a great help. XM Radio is also great at providing variety and superb quality that are not available anywhere else. This is a service that I PAY for and subscribe to because I want the variety and quality that I can not get anywhere else. Once again I PAY for this, and the NAB or anyone else has no right to tell me what I can or can not listen to. Since I PAY for this service I urge you to reject NAB's petition 04-160. What is next, a restaurant panel to tell me how much to tip a waiter, or how about commission to regulate where I need to take my automobile for an oil change, haircut police to tell me when, where and how much to pay for my haircut, and don't forget the panel to tell me how much to tip the Barber. These are all services that people pay for and it is there right to choose these services how ever they see fit. Since I PAY for XM Radio, this is also my choice and no one should be able to tell me what services I can and can not pay for.
